These three children appear in some of the questions in this test.

Instructions

You **may not** use a calculator to answer any questions in this test.

Work as quickly and as carefully as you can.

You have **45 minutes** for this test.

If you cannot do one of the questions, go on to the next one.

You can come back to it later, if you have time.

If you finish before the end, go back and check your work.

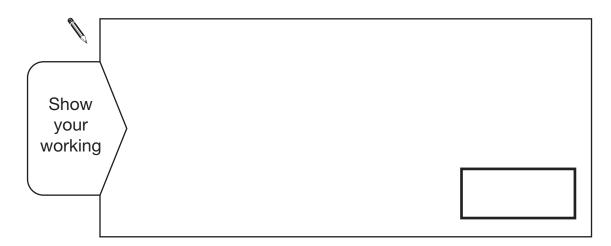

Follow the instructions for each question carefully.

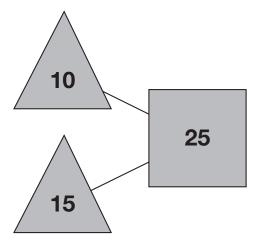

This shows where you need to put the answer.

If you need to do working out, you can use any space on a page.

Some questions have an answer box like this:

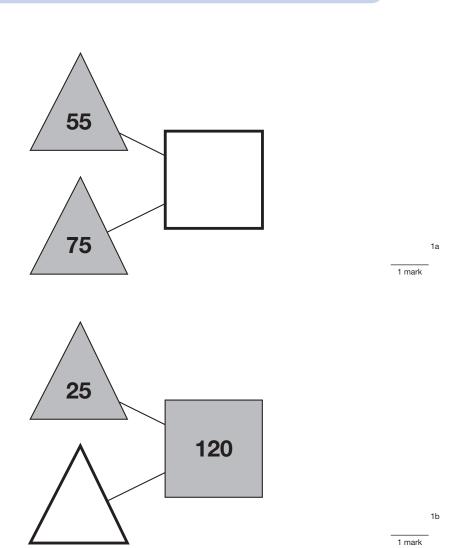

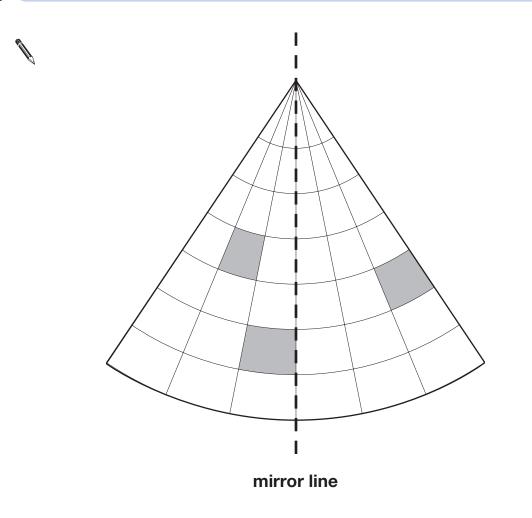

For these questions you may get a mark for showing your working.

Using the **same** rule, write in the missing numbers.

This diagram shows how nine people travel to work and how far away they live.

Megan and Chen are washing cars.

Megan gets £39 and Chen gets £55

They share what they get **equally** between them.

How much does each of them get?

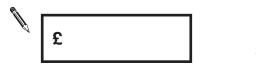

The table shows the cost of a new football kit.

Item	Cost
Shirt	£8.75
Shorts (1 pair)	£5.95
Socks (1 pair)	£4.15

Altogether, how much does the complete football kit cost?

1 mark

Here are some sentences about an amount of money.

Mark each sentence with a tick (\checkmark) if it is correct. Put a cross (x) if it is not correct.

One has been done for you.

£1.03 can be made with exactly 1 coin.

 $$\mathbb{1}.03$$ can be made with exactly **2** coins.

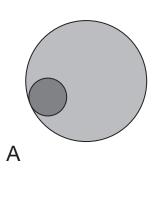

£1.03 can be made with exactly 3 coins.

Alfie places three cubes on a coordinate grid.

The base of his shape is a rectangle.

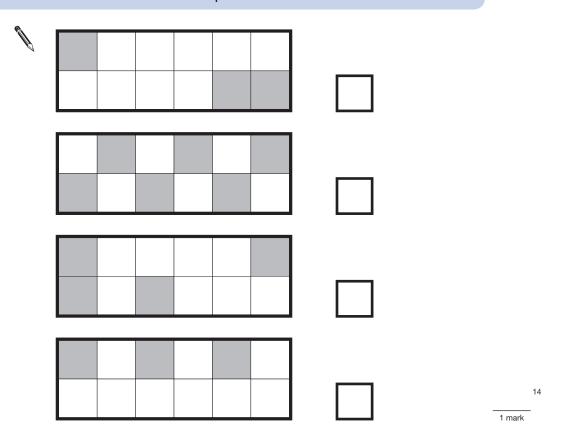

Complete this sentence:

The four vertices of the rectangle are

1 mark

Tick (\checkmark) each shape that is exactly $\frac{1}{4}$ shaded.

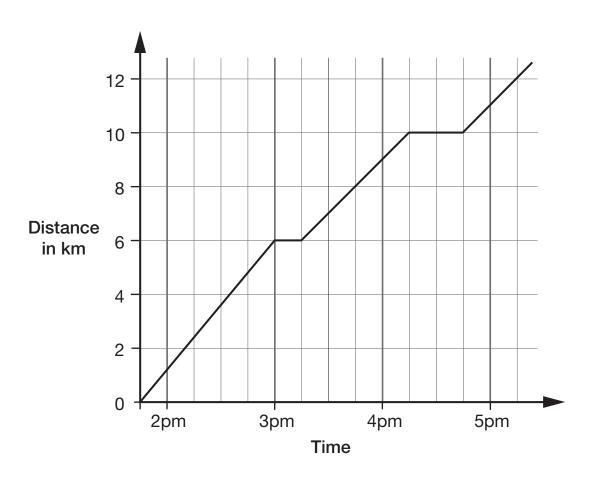

Four children are in a race. 15 Chen is 2 metres ahead of Alfie. Nina is 5 metres behind Megan. Alfie is 3 metres behind Megan. Write the names of the runners in order, starting with the child who is furthest ahead. 15 1 mark furthest ahead Alfie buys two books, each at the same price. 16 He pays with a £10 note and gets £2.30 change. What is the cost of one book? Show your working

This graph shows the distance Alfie and Chen walked in an afternoon. They started at 1:45pm and had two breaks.

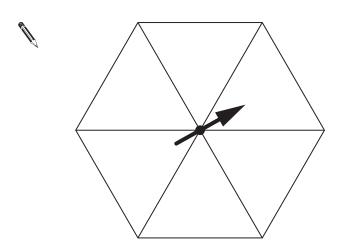

How many kilometres did they walk **between** the first and second breaks?

At what time did Alfie and Chen start their second break?

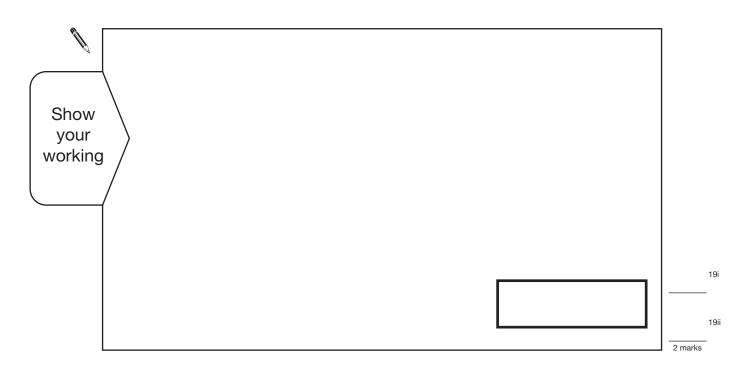

Write a whole number in each section of the spinner so that it is **certain** you will get a number less than 4 and it is **impossible** you will get an even number.

18 1 mark

19 Calculate **816** ÷ **24**

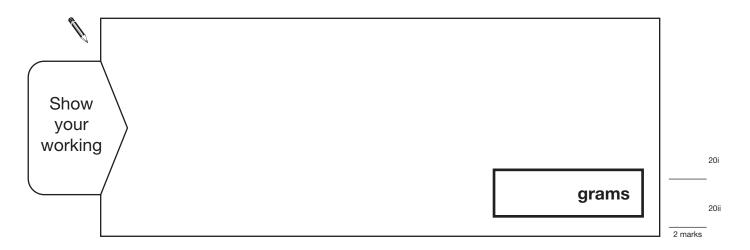

Chen and Megan each have a parcel.

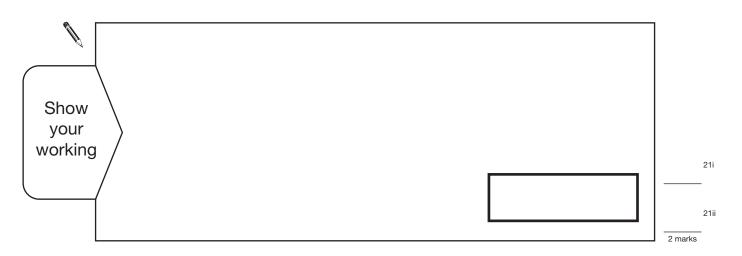

Chen's parcel weighs $1\frac{1}{2}$ kg.

Megan's parcel weighs 1.2kg.

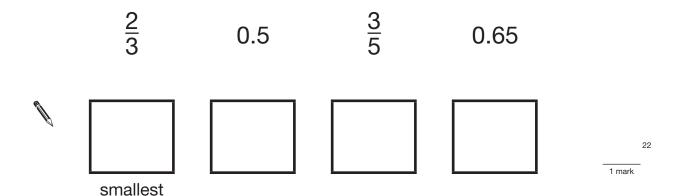

How many more **grams** does Chen's parcel weigh than Megan's parcel?

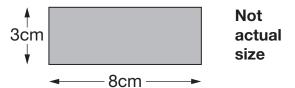

What is 50% of Megan's number?

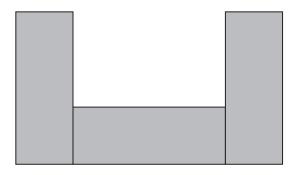

Write these in order of size, starting with the smallest.

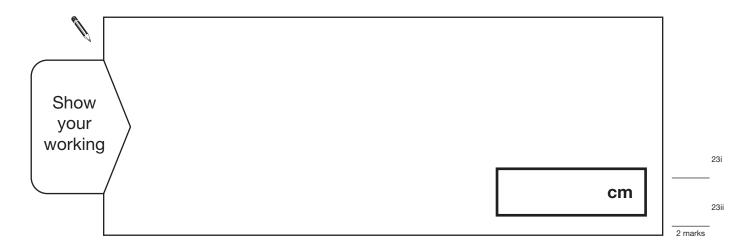

He makes this shape using three of the rectangles.

What is the **perimeter** of Alfie's shape?

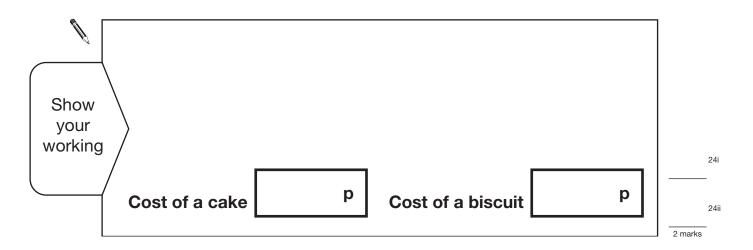

A cake costs 15p more than a biscuit.

Megan bought a cake and two biscuits for 90p.

How much do a cake and a biscuit each cost?

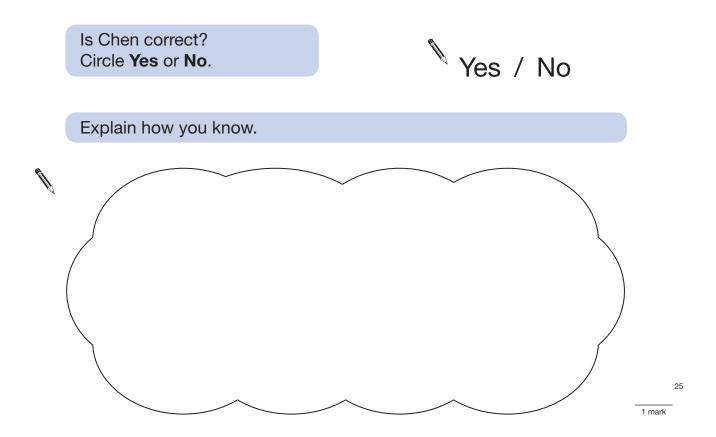

They each take one of their own counters without looking.

Chen says,

'I am more likely than Megan to get a 4'
