

Instructions

- Time allowed: 40 minutes.
- Teams will work in pairs, in separate parts of the room.
- There are 30 questions in total, 15 for Pair A and 15 for Pair B.
- *Two* marks are awarded for every correct answer. Pairs will have two chances to answer each question and there is no penalty for giving a correct answer at the second attempt. A question is marked either correct or incorrect and no partial marks are awarded.

Set A	Set B
3	36
7	46
8	108
28	224
36	251
39	283

Find two numbers from Set A whose sum and product are both in Set B.

Write the numbers of Set A that you have selected.

ANSWER:

A2

I start at the summit of the mountain Aonach Beag at a height of 1234 m above sea level, descend to sea level in Fort William and then climb to the summit of Ben Nevis at a height of 1344 m.

What is the change in altitude (height) in metres when I am at the summit of Ben Nevis compared with when I was at the summit of Aonach Beag?
